**CREATING  
FRESH  
&  
LIVELY ATMOSPHERE**

# CORPORATE SUMMARY

With a passion for design and a relentless commitment to quality, we craft bathware solutions that transform everyday routines into extraordinary experiences. Discover the artistry of functionality with us.

## UPHOLDING OUR VALUES: OUR GUIDING PRINCIPLES AND BELIEFS

At MONO Bathware, our values form the cornerstone of our journey. We believe in integrity, innovation, and a relentless pursuit of excellence. With a commitment to sustainability and customer-centricity, we are dedicated to enhancing lives through our bathware solutions.

## CORE VALUE

At our core, we embody integrity, innovation, and customer-centricity.

- 1 - INNOVATION IS A STATE OF MIND.
- 2 - QUALITY BEGETS EXCELLENCE.
- 3 - INTEGRITY MAKES US WHO WE ARE.
- 4 - A GLOBAL OUTLOOK BREAKS ALL BOUNDARIES.
- 5 - TEAM WORK CAN BUILD EMPIRES.

## INNOVATIVE BATHWARE SELECTION

**MONO**<sup>®</sup>  
BATHWARE

Discover our distinctive collection of bathware products, where innovation meets functionality. Our carefully curated range is designed to enhance your daily rituals with modern aesthetics and advanced features.

Easy to  
Clean

High quality  
Glazing for glossy finish

Anti-fungal and  
Self-cleaning properties

Easily removable  
Scratches and breaks

More silece in  
Water flow

Compact and  
Architecture design

# STANDOUT FEATURES

Our bathware products boast an array of standout features that prioritize your convenience and comfort. From intuitive technology to premium materials, we've thoughtfully crafted every detail to ensure an exceptional experience.

ONE PIECE

- Our one-piece toilet features a modern design
- Cleaning is a breeze with its streamlined construction
- Save water with its efficient flushing system
- Enjoy a comfortable and ergonomic seating experience
- Save water with its efficient flushing system
- Enjoy a comfortable and ergonomic seating experience

WALL HUNG

- Sleek, space-saving design
- Easy wall-mounted installation
- Modern aesthetics for any bathroom
- Maximise floor space effortlessly

TABLE TOP

- Elegant, versatile design
- Simple and stylish installation
- Fits seamlessly in any space

WALL MOUNTBASIN

- Space-saving wall-mounted design
- Effortless installation on your bathroom wall
- Modern aesthetics for a contemporary look

## INSTALLATION OF LAVATORY

Please Note: Please Install It In A Way That Future Removal From Underneath The Counter Top Is Possible Without Damaging The Counter Top.

1. Please Check The Desired Location For Clearance Between The Back Splash, Faucet, Fixture And Cabinet.
2. Please Cut The Template.
3. Please Carefully Trace The Template on The Counter Top Directed.
4. Please Mark The Faucet Hole Centerline On The Counter Top.
5. Please Drill A 1/2" Pilot On The Inside Of The Cut Line.

## TROUBLE SHOOTING GUIDE

| ITEM                                             | PROBLEM                                                | PROBABLE REASONS                                                     | CORRECTIVE ACTIONS                                              |
|--------------------------------------------------|--------------------------------------------------------|----------------------------------------------------------------------|-----------------------------------------------------------------|
| One piece Closet                                 | 1. Water not coming in bowl area while flushing        | Water line not cleaned properly                                      | Before installation clean the incoming as well as outgoing line |
|                                                  |                                                        | Malfunctioning of Mechanism inside tank                              | Change the mechanism                                            |
|                                                  |                                                        | No water flush tank                                                  | Raise the height change slot to the max. level                  |
|                                                  | 2. Leaking of water in bowl area                       | Push button is locked                                                | Release the push button                                         |
|                                                  |                                                        | Fitment of mechanism end part and outlet of tank not fitted properly | After opening the mechanism check the fitment                   |
|                                                  |                                                        | Malfunctioning of Mechanism inside tank                              | Change the mechanism                                            |
|                                                  | 3. Insufficient water quantity for effective flushing. | Height change slot adjusted at lower level.                          | Closet is not leveled properly                                  |
| 4. Uneven flow of water from both side of closet | Raise the height change slot to the max. level         | Level the closet properly                                            |                                                                 |
| Wall hung water closet                           | 1. Water not coming in bowl area while flushing        | Flush valve / concealed cistern is not working properly              | Change flush valve / concealed cistern                          |
|                                                  |                                                        | Flush pipe is not inserted up to the end of inlet hole.              | Insert the flush pipe upto the end of inlet                     |
|                                                  | 2. Leaking of water in bowl area                       | Closet is not leveled                                                | Level the closet properly                                       |
|                                                  | 3. Insufficient water quantity for effective flushing. | Connection between closet outlet and drainage pipe is improper.      | Engage experienced plumber for proper connection                |
| Wash basin / Table top                           | 1. Overflow choked and foul smell                      | Full threaded waste coupling might be in use.                        | Replace it by slot cut coupling                                 |
|                                                  | 2. Water logging in platform and bowl area             | Bracket and basin fixing may be the reason                           | Leveling to be checked and rectified                            |
|                                                  | 3. No tap hole in the basin                            | Tap hole is semi punched from back side                              | Call plumber and open up the semi punched hole.                 |
| EWC/Pan/ Anglo Indian                            | 1. Water not coming in bowl area while flushing        | Flush bend is not inserted up to the end of inlet hole               | Insert the flush pipe upto the end of inlet                     |
|                                                  |                                                        | Leveling issue                                                       | To be leveled properly                                          |
